

INTRODUCTION

This step-by-step guide will allow you to begin using CWT Mobile on your handheld device.

The CWT Tool on your Palm device is a great tool to use on your walks, because that information can be directly uploaded to the CWT website via a wireless or cellular connection.

The steps you will need to follow are:

ATTENTION LIFEDRIVE USERS

You will need to update your device's software.

Go to www.palm.com/us/support/downloads/lifedrive/lifedrive_update.html for instructions to update your LifeDrive device or call Palm Technical Support for assistance.

QUESTIONS?

Call 888-479-7600 or Email support@teachscape.com.

**STEP ONE: Install an application called
"Java" on your Palm device**

For an animated demonstration of Steps 2 and 3, go to
<http://production.teachscape.com/evan/cwtInstall.htm>

For your convenience, the step-by-step text directions are below.

- A. Open the Applications screen on your Palm device
- B. Open the "Web" Application (this is Palm's Blazer web browser)
- C. Go to <http://cwt.teachscape.com/mobile>
- D. Click on the "Install Java for Palm" link
- E. You will see two Java applications - install one at a time; answer *yes* when prompted to install the application
- F. Reset your Palm by pressing the reset button on the back of the device with the stylus or a paperclip (press this button for one second and release). Your device will restart.

STEP TWO: Install CWT Mobile on your Palm Device

For an animated demonstration of Steps 2 and 3, go to <http://production.teachscape.com/evan/cwtInstall.htm>

For your convenience, the step-by-step text directions are below.

- A. Open the Blazer "Web" application again, and go to the address: <http://cwt.teachscape.com/mobile> (shortcut: press the History button)
- B. Scroll to the bottom of the page and click the link, "CWT Mobile for Palm PDA". Your Device should ask whether you want to save the file to your device or to a card - select device.
- C. Choose the "Save and Open" option when prompted. Answer "yes" to any prompts.
- D. When installation is complete, you will see a screen called "Midlet List". Click the Palm's Home button to go back to the main Palm screen

**STEP THREE: Download the CWT
Reporting Tool onto your Palm Device**

For an animated demonstration of Step 4, go to
<http://production.teachscape.com/evan/usingCWT.htm>

For your convenience, the step-by-step text directions are below.

- A. Launch the CWT 2 program on your Palm and select "Install New Tool" from the Menu.
- B. Enter Program Code and Device Code (You will receive these codes through email or from your CWT Trainer). The software will search for matching device configurations.
- C. Select the desired Walkthrough tool and click "Install Config" to install the tool.

Congratulations! You have completed installing your CWT Mobile software and CWT tool on your Palm device.
