

Mac users may need to download the Windows Media Components for QuickTime Available [HERE](#). You should read all release notes and download/install the software only if you determine it is appropriate for the version of software you have.

Click the **Download** button.

With Windows Media® Components for QuickTime, by Flip4Mac™, you can play Windows Media files (.wma and .wmv) directly in QuickTime Player and view Windows Media content on the Internet using a Web browser.

Select the appropriate version based on your OS X version and click the **Next** button:

- 2.4.4.2\Flip4Mac WMV 2.4.4.2.dmg for Mac OS X versions below 10.7
- 3.2.0.16\Flip4Mac 3.2.0.16.dmg for Mac OS X versions 10.7 and higher
- Read all release notes before downloading/installing this or any other software to determine if it is appropriate for your computer

You can read the install instructions by clicking on the PLUS icon to the left of Install Instructions.
